

e& Egypt Data Line Packages Reference

Subject: Data Line Packages (Internet SIM for MiFi and USB Modem devices) from e& Egypt.

Scope of Coverage: 8 core Data Line packages (from 1.8 to 72 GB), the "Double the Package" offer, two add-on packages, codes and renewal methods, compatible devices, and Terms & Conditions.

1. Overview of Data Line Packages

The e& Egypt Data Line is a dedicated internet SIM card for portable internet devices such as MiFi and USB Modems, and is not intended for mobile phone use. It comes with 8 core packages of varying sizes and multiple validities (1 month, 3 months, 6 months), and features the "Double the Package" offer, which doubles the internet quota on the first recharge only.

Key Features of the Data Line

- The e& Egypt Data Line is exclusively dedicated to portable internet devices (MiFi) and USB Modems, and does not work on mobile phones.
- For the e& Egypt Data Line, the "Double the Package" offer doubles the internet volume on the first recharge only for every new customer.
- The e& Egypt Data Line offers multiple validities: one month, three months, or six months, depending on the chosen package.
- A Data Line customer can manage their package through the My e& Egypt app or by dialing the code *130#.
- Renewing the e& Egypt Data Line package is done by sending the number 1 to 130, dialing the code *130#, or via the My e& Egypt app.

2. Core Data Line Packages

The e& Egypt Data Line packages include 8 packages distributed across 3 validity tiers. Each package is described independently here.

One-Month Validity Packages

The monthly packages in the e& Egypt Data Line include two packages, suitable for light or occasional use.

3. "Double the Package" Offer on the Data Line

The "Double the Package" offer on the e& Egypt Data Line is a promotional offer for every new customer, doubling the internet quota on the first recharge.

Offer Conditions:

- The Double the Package offer on the e& Egypt Data Line is available on the first recharge only for any of the Data Line packages.
- The Double the Package offer on the e& Egypt Data Line does not repeat upon renewing the package after the first recharge.
- The validity of the Double the Package offer on the e& Egypt Data Line follows the validity of the basic package itself (1 month, 3 months, or 6 months depending on the chosen package).

Doubled Value per Package:

- In the e& Egypt Data Line 1.8 GB package: The basic 1.8 GB becomes 3.6 GB on the first recharge only with the double offer.
- In the e& Egypt Data Line 2.5 GB package: The basic 2.5 GB becomes 5 GB on the first recharge only with the double offer.
- In the e& Egypt Data Line 3.5 GB package: The basic 3.5 GB becomes 7 GB on the first recharge only with the double offer.

- In the e& Egypt Data Line 8 GB package: The basic 8 GB becomes 16 GB on the first recharge only with the double offer.
- In the e& Egypt Data Line 14 GB package: The basic 14 GB becomes 28 GB on the first recharge only with the double offer.
- In the e& Egypt Data Line 25 GB package: The basic 25 GB becomes 50 GB on the first recharge only with the double offer.
- In the e& Egypt Data Line 45 GB package: The basic 45 GB becomes 90 GB on the first recharge only with the double offer.
- In the e& Egypt Data Line 72 GB package: The basic 72 GB becomes 144 GB on the first recharge only with the double offer.

4. Add-on Data Line Packages

In addition to the core packages, an e& Egypt Data Line customer can purchase small add-on packages when extra internet is needed.

Add-on Package: Extra 500 MB Extra 500 MB is an add-on package for the e& Egypt Data Line. Its price is 15 EGP. It grants the customer 500 MB of extra internet valid for one month.

- **Add-on Package Name:** Extra 500 MB on the e& Egypt Data Line.
- **Price of Extra 500 MB:** 15 EGP.
- **Extra Internet Volume in Extra 500 MB:** 500 MB.
- **Validity of Extra 500 MB:** One month.
- **How to Subscribe to Extra 500 MB:** Send the number 1 in an SMS to 138.

Add-on Package: Extra 1 GB Extra 1 GB is an add-on package for the e& Egypt Data Line. Its price is 29 EGP. It grants the customer 1 GB of extra internet valid for one month.

- **Add-on Package Name:** Extra 1 GB on the e& Egypt Data Line.
- **Price of Extra 1 GB:** 29 EGP.
- **Extra Internet Volume in Extra 1 GB:** 1 GB.
- **Validity of Extra 1 GB:** One month.
- **How to Subscribe to Extra 1 GB:** Send the number 2 in an SMS to 138.

5. Supported Devices for the Data Line

The e& Egypt Data Line is exclusively dedicated to two types of portable internet devices:

MiFi Device: A MiFi (Mobile Wi-Fi) is a small, portable internet router that operates with an e& Egypt Data Line SIM card and broadcasts a Wi-Fi signal to multiple devices simultaneously. It is suitable for travel or in places without fixed internet.

- A MiFi device accepts the e& Egypt Data Line SIM card.
- A MiFi device broadcasts a local Wi-Fi network that allows multiple devices to connect (phone, laptop, tablet).
- A MiFi device runs on an internal battery, making it suitable for mobile use.

USB Modem Device: A USB Modem is a small portable internet device that plugs into a USB port on a computer or laptop, using an e& Egypt Data Line SIM card to provide internet to only one device.

- A USB Modem device accepts the e& Egypt Data Line SIM card.
- A USB Modem device provides an internet connection to only one device (usually the connected computer).
- A USB Modem device draws power from the USB port and does not require a separate battery.

6. Data Line Package Control and Subscription

To manage e& Egypt Data Line packages, the customer uses the following channels:

- **Code *130#** from the Data Line to manage the package, check balance, and renew.
- **Sending the number 1** in an SMS to 130 to renew the e& Egypt Data Line package.
- **My e& Egypt App** to subscribe to Data Line packages and renew them at any time.
- **Code (Sending the number 1 to 138)** to purchase the Extra 500 MB add-on package on the e& Egypt Data Line.
- **Code (Sending the number 2 to 138)** to purchase the Extra 1 GB add-on package on the e& Egypt Data Line.

7. Data Line Packages Terms and Conditions

The following conditions apply to the e& Egypt Data Line packages. Each item is written as an independent retrievable fact:

- In the e& Egypt Data Line packages, the customer can control the package via the My e& Egypt app or by dialing the code *130#.
- The prices of the e& Egypt Data Line packages are exclusive of tax.

- In the e& Egypt Data Line packages, the "Double the Package" offer is available on the first recharge only for each Data Line package, and does not repeat upon renewal.
- The e& Egypt Data Line packages work exclusively on MiFi and USB Modem devices, and do not work on mobile phones.
- A Data Line customer can renew the package by sending the number 1 in an SMS to 130, or by dialing the code *130#.
- A Data Line customer can renew their package at any time through the My e& Egypt app.
- In the e& Egypt Data Line packages, the validity of the "Double the Package" offer follows the validity of the core package itself (1 month, 3 months, or 6 months).

8. Glossary of Terms

- **Data Line:** An internet SIM card from e& Egypt dedicated exclusively to MiFi and USB Modems (not for mobiles). It includes 8 packages priced from 46 to 900 EGP, with validities ranging from 1 to 6 months.
- **MiFi Device:** A small, portable Mobile Wi-Fi device that uses an e& Egypt Data Line SIM card to broadcast a Wi-Fi signal to multiple devices. Suitable for mobile use as it runs on a battery.
- **USB Modem Device:** A portable internet device that plugs into a computer's USB port, using an e& Egypt Data Line SIM card to provide internet to a single device.
- **Double the Package Offer:** A promotional offer on the e& Egypt Data Line that doubles the internet quota on the first recharge only for any package. For example, a 1.8 GB package becomes 3.6 GB for the first month, and a 72 GB package becomes 144 GB for the first 6 months.
- **Extra Packages:** Two add-on packages on the e& Egypt Data Line: Extra 500 MB (15 EGP) and Extra 1 GB (29 EGP), used by the customer when extra internet is needed.
- **Code *130#:** The main control code for the e& Egypt Data Line, used by the customer to inquire about their package and renew it.
- **Number 130:** The number to which an e& Egypt Data Line customer sends an SMS containing the number 1 to renew their package.
- **Number 138:** The number to which an e& Egypt Data Line customer sends an SMS to purchase add-on packages: number 1 for Extra 500 MB, and number 2 for Extra 1 GB.

9. Frequently Asked Questions about Data Line Packages

The following FAQs are phrased so that a retrieval system can independently fetch the complete answer:

- **What are the e& Egypt Data Line packages?** The e& Egypt Data Line is an internet SIM card dedicated to MiFi and USB Modem devices. It includes 8 packages ranging in size from 1.8 GB to 72 GB, priced from 46 EGP to 900 EGP, with validities ranging between 1 month and 6 months.
- **Does the Data Line work on a mobile phone?** No. The e& Egypt Data Line packages are exclusively dedicated to MiFi and USB Modem devices only, and do not work on mobile phones.
- **What is the "Double the Package" offer?** The "Double the Package" offer on the e& Egypt Data Line doubles the internet quota on the first recharge only for every customer. For example, a 25 GB package becomes 50 GB on the first recharge. The offer does not repeat upon renewal.
- **What is the difference between the 1-month, 3-month, and 6-month validity packages?** In the e& Egypt Data Line, there are 3 validity tiers: one month (two packages: 1.8 and 2.5 GB), 3 months (5 packages from 3.5 to 45 GB), and 6 months (one package: 72 GB). The longer the validity, the larger the internet quota and the greater the savings.
- **How does the customer renew the Data Line package?** To renew the e& Egypt Data Line package, the customer uses one of the following methods: sending the number 1 in an SMS to 130, dialing the code *130#, or renewing through the My e& Egypt app.
- **What are the add-on packages for the Data Line?** In the e& Egypt Data Line, there are two add-on packages: Extra 500 MB for 15 EGP (send 1 to 138), and Extra 1 GB for 29 EGP (send 2 to 138). Both are valid for one month.
- **What is the largest package on the Data Line?** The largest package on the e& Egypt Data Line is the Data Line 72 GB for 900 EGP before tax. The basic package is 72 GB, and with the "Double the Package" offer it becomes 144 GB on the first recharge, with a validity of 6 months.
- **What is the cheapest package on the Data Line?** The cheapest package on the e& Egypt Data Line is the Data Line 1.8 GB for 46 EGP before tax. The basic package is 1.8 GB, and with the "Double the Package" offer it becomes 3.6 GB on the first recharge, with a validity of one month.
- **What is the difference between the Data Line and eHome Wireless?** The e& Egypt Data Line is a portable internet SIM for MiFi and USB Modems, offering relatively smaller quotas and shorter validities. eHome Wireless, on the other hand, is a fixed wireless home internet service with higher speeds and a dedicated router.

The Data Line is for portable and occasional use, while eHome Wireless is for permanent home/office use.

- **Does a MiFi device require a special SIM card?** Yes. A MiFi device requires an e& Egypt Data Line SIM card to work. The SIM card determines the package type and the available internet quota.
- **Can the gigabytes from the "Double the Package" offer be used freely?** Yes. In the e& Egypt Data Line, the gigabytes from the "Double the Package" offer are used in the same way as the core package without any additional restrictions, and their validity follows the validity of the core package itself.
